15' below zero when we  
went down at morning. Today  
you would love it. Goals  
like tennis and ice  
snow on the train & back  
skin is supposed to be a  
thingy expected but no  
one will use cause done in snow  
in a regular post 92° and  
visit to Communism. All  
seems very strange. It's just  
before we get and it will be a test of  
in the sky. Done.
